Education

University of Calgary

September 2016 - June 2021 (Expected)

- Bachelor of Science in Electrical Engineering candidate.
- Minor: Computer Engineering.

Sir Winston Churchill High School

September 2013 - June 2016

- High School Diploma.

Skills

Tools and Technologies: Git | Android | SQL Server | Microsoft Azure | Junit

Programming Languages: C | C++ | Java | Kotlin | C# | SQL

Work Experience

Zephyr Sleep Technologies – Software Development Intern

June 2019 – Present

- Improved testing infrastructure by integrating UI tests for the Android app.
- Added features and bug fixes to the Windows and Android app to improve user experience.
- Developed a toggle mechanism for the Android app to allow switching between which API the application communicates with to reduce risk of releasing the new version of the REST API.
- Refactored majority of the Android app to prevent it from freezing when device goes to sleep.
- Improved the security of the Windows 8.1 app using TLS 1.0 to use TLS 1.2 to make API calls.
- Improved the usability of the Android app by fixing crashes due to double tapping of buttons.

Eau Claire YMCA – Camp Counselor

June 2015 - August 2015

- Planned and coordinated play-based learning activities for kids of various ages.
- Facilitated a safe and positive learning environment for summer campers.

Projects and Extracurriculars

University of Calgary Schulich Off-Road Team

September (2017 - 2018)

- Assisted our team which competed internationally against other teams.
- Worked primarily with the electrical team but assisted the mechanical team with car assembly.
- Worked on telemetry to acquire sensor data from the vehicle remotely using Arduino.

CalgaryHacks – Hackathon

February 2018

- Developed a car safety system kit in a team of four using particle electron kit.
- Setup the microcontroller to send data to a provided IoT cloud-based platform.
- The kit reported engine temperature, speed and proximity alerts to an Android application.
- It used temperature, accelerometer and distance sensors to report the alerts to the application.

Calculator – Personal Project

December 2017

- Calculates expressions for positive integers. Checks for unbalanced parenthesis.
- Implemented using Stack data structure in C++.

Volunteer Experience

TELUS Spark Science Center – Summer Camp Volunteer

March 2015

- Assisted in managing a group of kids ages (6-8).
- Taught kids how to animate using stop motion animation software in the Telus animator camp.
